

College Bound Scholarship Application

The College Bound Scholarship was created as an opportunity for youth ages 11-17 to attend college preparatory classes, or receive tutoring assistance. It is GLHF's hope that these enrichment courses will help to prepare students for the college experience and in turn succeed in their selected program and career path. An example of an eligible class would be a College for Kids or Teens Program at a University. If you have a class or tutoring program in your community that you are interested in attending, and need assistance with the tuition please complete the application and return to Karin Daniels. For more information contact the Foundation at 414.937.6782.
