Trainings

Trainings are where participants will learn in depth about their new role and the foundational skills of the program that will prepare them for the upcoming camp session. Participants will be required to arrive at camp a day early for LIT Orientation and watch assigned online training videos prior to Camp.

We strongly encourage all participants, especially those new to the program, to attend both the LIT winter and spring training weekends. These trainings provide valuable opportunities for participants to meet LIT staff and peers to receive thorough, hands-on training that will better prepare them for success prior to the camp session. Participants should anticipate attending every training, unless they notify GLHF ahead of time of a prior obligation that takes priority. More information about trainings will be given after their LIT application is received, and accepted.
